
Lines: only the national reference price varies; taxes/levies (3.13 Rp./kWh), grid usage (13.17 Rp./kWh) and EUR/CHF (0.9370, annual mean) as in 2025.
Markers: real base years (labelled at the Alpine PV marker) with their own surcharges and annual EUR/CHF rate, same colours as the lines; therefore not exactly on the lines.
Dashed: reference price at which the rank-1 scenario changes (posterior-mean utility), labelled 'before → after (price)'.
National aggregate (appendix; national attribute values, survey-sample weights) · 96% HDI · ElCom prices and EUR/CHF 2025.
