

Lines: only the reference price varies; taxes/levies (3.13 Rp./kWh), grid usage (13.17 Rp./kWh) and EUR/CHF (0.9370, annual mean) as in 2025.
Markers: real base years with their own surcharges and annual EUR/CHF rate (Alpine PV / S/CCGT (Fossil) + DACCS, same colours); therefore not exactly on the lines.
Dashed: reference price at which Alpine PV / S/CCGT (Fossil) + DACCS swap rank (posterior-mean utility).
